Enthusiastic Learner. Always seeking to learn and work with new technologies. Need an opportunity to improve my technical and digital skills in a challenging environment. Efficient in collaborating with teams as well as individuals. Have experience interacting with international clients as well.

PROJECTS

Fleet Management System - Web and Android Application - Java, Android - Final Year Project

- Fleet F16 is a web based fleet management system, which enables to track and manage vehicles using drivers mobile.
- Proposed a digital portal to manage driver, vehicles and fuel.
- Developed an android application using Android Studio and SQL Database to track driver's mobile.
- Used Google Maps API for location and distance calculation.
- **Technologies Used:** Java | JavaScript | JQuery | JSON | AJAX | MySQL | Android | XML | HTML | CSS | Bootstrap.

Geeks Point of Sale - Java Swing, SQL Database, Birt Reporting

- Geeks POS is a Java-based desktop application allowing users to manage sales and purchases.
- POS includes User, Company, Category, Token, Sales, Purchase, and Permissions modules.
- Developed an attractive UI in Java Swing.
- Used Birt Reporting to generate slip.

Student Management System - JSP, Servlets, MySQL

- Developed a Java-based web application, which allows students to manage courses.
- Modules include department, student, and courses.
- Used MySQL as a database for our application.
- Front End technologies include Html, Css, and Bootstrap.
- Backend technologies include JSP, and Servlets.

Enticing Housing - Android

- Created an Android application having the same functionality as Zameen.com.
- Modules include properties, users, and permissions.

Student Score Prediction - Microsoft Azure, Python

- Developed a student score prediction system on Microsoft Azure and Python using Linear Regression.
- Predictions were based on the test score of students.
- Datasets were imported from Kaggle.

EDUCATION

ME in Software Engineering

Mehran University of Engineering and Technology, Jamshoro

📅 March 2021 – March 2023

3.23 CGPA

BE in Software Engineering

Mehran University of Engineering and Technology, Jamshoro

📅 November 2016 – January 2021

3.39 CGPA

EXPERIENCE

Internee

Intrapreneur - Hyderabad

📅 May 2023 - June 2023

Worked on NapiPay, KSA EMI App.

Teaching Assistant

Mehran University of Engineering and Technology - Jamshoro

📅 November 2021 - November 2022

Taught OOP and Data Structure in Java

Freelancer

Fiverr - Part-time

📅 January 2020 - October 2021

Developed Desktop And Web Applications For International Clients.

Junior Java Developer

Geeks Consultancy - Hyderabad

📅 July 2018 - December 2019

Technologies Learned: JavaSE | JavaEE | SQL | NoSQL | JSP | Collection | Hibernate.

LEADERSHIP EXPERIENCE

Director Logistics
Software Engineering Society
📅 Nov 2018 – August 2019   📍 MUET, Jamshoro

Brand Ambassadar
Probattle
📅 July 2018   📍 IBA, Karachi

Brand Ambassadar
ITEC
📅 April 2018   📍 NED, Karachi

Best Brand Ambassadar
CCUBE
📅 February 2018   📍 QUEST, Nawabshah

CERTIFICATIONS

Spring Boot 3, Spring 6 & Hibernate for Beginners
Udemy
📅 In Progress

Intern (MERN Stack)
DevCreatives++
📅 May 2022 – July 2022

NFTP Content Marketing & Advertising
NFTP
📅 April 2021 – August 2021

Programming for Everybody (Getting Started with Python)
Coursera
📅 May 2020

SKILLS

- Programming Languages
  Java   Python   C#
- Markup Languages
  HTML   XML   JSON
- Databases
  SQL   Oracle
- Front End Frameworks
  Figma   Balsamiq
- Back End Frameworks
  Hibernate   Spring Boot
- Design Patterns
  DAO   MVC
- Testing Frameworks
  JUnit   Selinum
- Development Tools
  Azure   GitHub   Postman

PROGRAMMING AWARDS

Database Champion
Tech Arena
📅 2019   📍 MUET, Jamshoro

Speed Programming Runner Up
Tech Arena
📅 2018   📍 MUET, Jamshoro
